ABOUT MYSELF

Here's what I'm familiar with and proficient in at the moment:

Web Development

- **HTML5, CSS3, JavaScript:** Extensive experience in coding, primarily for developing the "News" and "Articles" sections on the [Bomba.md](#) website.
- **CSS Frameworks:**
 - **Tailwind CSS:** Extensive use for fast and efficient UI development.
 - **Uikit:** Recently used to speed up development and maintain consistent styling.
 - **SASS/SCSS:** Familiar with preprocessors to enhance CSS with variables, nesting, and modularization.

JavaScript and Related Technologies

- **Vue 3:** Proficient in Vue, including animations and the Composition API. Used it to convert a terminal website into a single-page application (SPA), improving loading speed and user experience.
- **Vuetify:** Leveraged for creating interactive and user-friendly components in SPA development.
- **Pinia:** Knowledgeable in using this state management library for Vue applications.
- **TypeScript:** Basic understanding with a strong desire to learn and work more extensively with it.

PHP and Blade Templates

- Experienced in building dynamic content using PHP Blade templates. Created individual components for [Bomba.md](#) and [Sportlandia.md](#).

Version Control

- **Git:** Skilled in tracking and managing code changes across multiple projects.
- **GitLab:** Experienced in hosting repositories and collaborating with teams.

Project Management Tools

- **Trello:** Regularly used for organizing tasks and managing projects.
- **Bitrix:** Familiar with this CMS for building and managing websites.
- **Planfix:** Used for task tracking and project management.

Additional Skills

- Completed an English language course at Cambridge Regional College (IELTS 5.5, 2017).
- Actively improving English proficiency, focusing on pronunciation and confident communication.

WORK EXPERIENCE

02/05/2024 – CURRENT Chişinău, Moldova

FRONTEND DEVELOPER BOMBA (AV ELECTRONIC SRL)

Developing "News" and "Articles" Sections for [Bomba.md](#)

Collaborated with the SEO team to create and style articles, news, and promotional content based on Figma designs. Utilized CSS and Swiper for user-friendly, visually appealing pages, publishing 2–3 articles weekly. Recently integrated the Uikit framework to streamline development and maintain consistent styling.

Building and Supporting PHP Components for [Bomba.md](#) and [Sportlandia.md](#)

Developed dynamic PHP components using Blade templates to enhance content display and interactivity. Provided ongoing support and updates to existing components, improving user engagement.

Creating the [GrandHall.md Adidas Landing Page](#)

Designed and built the landing page using Laravel and Uikit within one week. Leveraged a pre-existing admin panel to ensure seamless navigation and a brand-consistent design.

Converting the [Terminal Website](#) to an SPA (Work in Progress)

Collaborated with the team lead to transform the terminal website into a single-page application (SPA), improving loading speed and user experience. Utilized Vue.js and Vuetify to implement smooth interactivity and dynamic features.

16/10/2023 – 20/02/2024 Chişinău, Moldova
JUNIOR FRONT-END DEVELOPER WEBDEV.GLOBAL

Developing Components for [Picktur.md](#) SPA
Implemented frontend components using Vue 3 with the Composition API and TailwindCSS. Added animations to enhance the user experience. Contributed to building a user dashboard for a travel company, ensuring functionality and a visually appealing interface.

How I Got into the IT Sphere

I began my journey in IT by dedicating six months to self-study in programming, followed by several months of mentoring and job searching. During my mentoring project, I:

- Implemented authentication using pure JavaScript.
- Created and managed databases with PostgreSQL.
- Developed data validation functions.
- Wrote and executed tests using Mocha.

The project, currently 60% complete, showcases my ability to build and test core application functionalities.
