Dzmitry Yavid
Product Owner

Wrocław, Poland · 48 572 356 268 · dzmitryyavid@gmail.com · https://www.linkedin.com/in/dmitry-yavid/

SUMMARY

Product Owner with over 8 years of experience leading product development in the B2B space. Proven track record in managing cross-functional teams (up to 4 teams, 30+ software development professionals), driving agile transformations, and delivering high-impact products.

Skilled in creating product vision, roadmap creation, user research and communication with stakeholders to deliver strategic business value. Passionate about DevOps culture, data driven decision making, proper ux and fostering a delivering value mindset for engineers.

PROFESSIONAL EXPERIENCE

Product Owner   **Mar 2023 - Now**
Luxoft (On-site with Top 10 car manufacturer), Wrocław, Poland

- Led the remote update product for a 15M-vehicle fleet as Product Owner for a Top 10 car manufacturer with a $7M budget
- Launched a completely new B2B product from scratch and delivered within 6 months
- Took over product ownership from a previous vendor's team to a newly formed team of 27 members and achieved 100% of strategic goals every quarter

Agile Project Manager   **Dec 2021 - Dec 2022**
SoftTeco, Warsaw, Poland

- Led CRM and Edu (SaaS) domain products as Product Owner with a $1M budget
- Managed successful organizational transformation after customer request from 3 Scrum teams to 1 Kanban-Scrum Team (20+ IT professionals) with overcoming on +20% of the initial performance within the first 1.5 months
- Decreased development cycle time for user stories from 8 to 5 days and releases from 5 to 2 day by coaching and mentoring XP and DevOps practices (pair programming, swarming, Continuous Integration/Continuous Delivery, BDD, migration from TFS to Git VCS) within the first 6 months

Agile Project Manager   **Aug 2017 - Jan 2019**
JazzTeam, Minsk, Belarus

- Successfully launched a new product within a year, managing a $500K budget
- Built core business processes (Scrum, risk management, and test management) and organized workflows for a SaaS product using Jira and Confluence, achieving a 45% sales increase within 2 years
- Implemented DevOps practices, including CI/CD, saving over 100 development hours in the first year, and introduced UI automation testing and DDT, scaling from 0 to 55,000+ test cases within a year.

CEO, CTO, Agile Project Manager   **Nov 2016 - Aug 2017**
Yavid, Baranovichy, Belarus

- Led the $2M integration of CAD/CAM/MRP II systems into ERP, ensuring project completion on time and within budget
- Managed and successfully finished 4 workshop reconstruction projects with an overall budget of more than $1.5M
